### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

The present claims are patentable over the prior art. There is no teaching or suggestion to make EPO conjugates that are mono-pegylated at the N-terminus. The closest related art is US Patent No. 6,583,272, which teaches mono-pegylation of PEG by pegylating the entire protein and then purifying the mono-pegylated species. The patent does not teach or suggest an advantage of mono-pegylating the N-terminus specifically. Moreover, the patent does not teach the steps of the present claims. Thus, US Patent No. 10/014,363 is not considered to meet the limitations of the claims and raises no double patenting issues. The claims appear to be free of the prior art and are in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Holly Schnizer whose telephone number is (571) 272-0958. The examiner can normally be reached on Tuesday-Thursday from 10 am to 5:30 pm.
